

Environmental, Social and Governance Statement

Svenska Petroleum Exploration AB (“Svenska”) is committed to doing business responsibly. Preventing harm to life, assets and the environment as well as respecting and supporting our local communities, are core Svenska values.

Our business ethics and compliance framework provides for strong governance to ensure that we apply high levels of personal and professional integrity at all times.

We adopt a pro-active approach to environmental and social issues in all our activities, from supporting our office staff, through to influencing and monitoring our non-operated oil and gas interests in West Africa.

We strive to be the partner of choice for our stakeholders, and continually look to adopt the highest standards of safety and working conditions, while minimising any environmental and social impacts associated with what we do.

Signed for and on behalf of the Board of Svenska Petroleum Exploration AB:

Jason Milazzo
 Director of Svenska Petroleum Exploration AB
